Sir:

In response to the October 20, 1999 Office Action, please amend the above-identified
REISSUE application as follows:

IN THE CLAIMS:

Please amend patent claim 1 as follows:

- Sub E 1. (Amended) An embeddable mounting device comprising:
- a first rectangular metal plate member having a first inner surface, a first outer surface,
a first length measuring between fifteen (15") and seventeen (17") inches, a first width
measuring between seven (7") and nine (9") inches, and a first thickness, said first metal plate
member being a one-piece unitary member;
- a second rectangular metal plate member having a second inner surface, a second
outer surface, a second length of a measurement equal to said first length, a second width of a
